

Achref Gallaoui

Full-Stack Developer | Frontend Focused (Mid-Senior Level)

achref.gallaoui.dev@gmail.com | (+216) 52 015 939 | github.com/gal1aoui | gal1aoui.github.io

ABOUT

Frontend-focused Full-Stack Developer with **3+ years of professional experience** delivering scalable, high-performance web applications. Strong focus on **frontend architecture, performance optimization, and developer experience**, while maintaining solid backend expertise. Experienced in **Agile environments**, cross-functional collaboration, CI/CD automation, and leveraging **AI tools to accelerate development**. Comfortable owning features end-to-end and contributing at a **mid-to-senior engineering level**.

EXPERIENCE

Software Engineer | KPIT Technologies | Aug 2023 – Aug 2025 | Full-time

- Built and optimized **frontend-heavy features** using **React, Angular, and TypeScript**, improving delivery speed and runtime performance.
- Applied **performance optimizations** (component refactoring, state management tuning, rendering improvements) across multiple modules.
- Collaborated closely with **UI/UX designers using Figma**, product owners, and backend engineers to translate designs into maintainable, scalable components.
- Integrated and maintained **GitLab CI/CD pipelines**, improving build reliability and reducing manual deployment effort.
- Leveraged AI-assisted development tools to accelerate coding, refactoring, and testing while maintaining code quality.
- Regularly participated in **code reviews**, providing constructive feedback, enforcing best practices, and maintaining frontend code quality standards.
- Took responsibility for **internship and junior project supervision**, guiding implementation decisions, reviewing deliverables, and ensuring alignment with team standards.
- Actively participated in Agile/Scrum ceremonies (sprint planning, reviews, retrospectives).
- Contributed to internal tooling, including a VS Code extension, improving developer productivity across the team.

Full-Stack PHP Developer | Global Web Marketing | Jun 2021 – Jun 2023 | Part-time

- Led frontend modernization of ERP and business platforms using **JavaScript, Tailwind CSS, and PHP**, significantly improving UI consistency and usability.
- Refactored legacy interfaces with a focus on **performance, accessibility, and maintainability**.
- Collaborated with stakeholders to design and implement **UI/UX improvements**, increasing user engagement and satisfaction.
- Worked across the stack with **Laravel, MySQL, and REST APIs**, ensuring smooth frontend–backend integration.
- Automated testing workflows and wrote **unit and functional tests**, reducing manual QA effort.
- Gained hands-on experience working in **Agile teams**, managing tasks and bugs through Jira.

SKILLS

Frontend: React, Angular, Next.js, Material UI, Spartan UI, Tailwind CSS, Zod, Zustand, TanStack

Backend: Laravel, Node.js, VSCode API, Nest.js, .Net, REST APIs

Programming Languages: JavaScript, TypeScript, C#, PHP, Python

Databases: MySQL, MongoDB, Supabase, SQLite

DevOps & Tools: Docker, Git, GitLab, CI/CD, Jira

Testing: Unit Testing, Robot Framework, Jest, Mocha

Collaboration & Design: Figma, Agile/Scrum

EDUCATION

Higher Institute of Computer Science and Multimedia of Sfax

- Master's in Project Management & Innovation (2021–2023)
- Bachelor's in Computer Science (2018–2021)

ADDITIONAL HIGHLIGHTS

- Strong **eagerness for frontend excellence** and modern UI engineering best practices
- Experience collaborating with **international teams**
- Participation in internal tech initiatives, tooling improvements, and knowledge sharing
- Comfortable mentoring, reviewing code, and contributing to technical direction
